SPECIAL EDITION

Souverän® 600 Tortoiseshell-Red

This colorful series gives our classic Souverän a bright and warm appearance. The extraordinary color variation is reminiscent of a beautiful sunset and encourages us to stroll down memory lane. The slightly transparent barrel is made out of cellulose acetate and shimmers in a light brown and orange. Traditionally the cap and all other parts of the casing consist of high-grade resin. These parts are featured in a warm red, which is one reason for the fascinating bright appearance of the writing instrument. The shiny gold rings, the traditional beak-like clip and the 14-carat bi-color gold nib with rhodium trim harmonize perfectly with the warm interplay of colors of the series Tortoiseshell-Red.

The piston fountain pen will be available with the nib-sizes EF, F, M or B. In addition to the piston fountain pen there will also be a ballpoint pen with twist mechanism available. The series is delivered in a practical folding box. Additionally a gift box can be ordered separately to make this series a colorful gift option.

The Souverän 600 Tortoiseshell-Red will be available as of December 2020. As a completion we are recommending the matching flacon of Edelstein Ink Mandarin.
